**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My internet provider (Sonic Fusion) is a small company based in Santa Rosa, California. Sonic Fusion provide services throughout the state of California with monthly fees cheaper than AT&T and faster internet service. I have been with Sonic Fusion for over two years and very happy with their services.

I used to be a customer of AT&T and was unhappy with the price hack for a fast speed internet service provided by AT&T. That's the main reason for me to leave AT&T and selected Sonic Fusion which provided me with faster internet and phone services with a lower cost.

The internet and phone services is an extremely important part of every household for entertainment and communications with families and the world. The low cost service provided by Sonic Fusion save us money which is a big factor.

The importance of internet and phone services provided by Sonic Fusion is crucial part of family budget in a very competitive market. A lot of families in California need the services from Sonic Fusion in order to save money and avoiding big internet providers' constant price increases and poor customer service.

Thank you for your time and consideration.

Best Regards,

James Lee
